

Health screening options

Let's get health screening

1. Corporate insurance plans

Companies may offer health screening as part of their **corporate insurance plans**. For example, Prudential's employee benefits packages include **free annual health screening options**.

Individuals can check with their company's HR representative or people manager to see if they are covered by a corporate insurance plan that includes health screening.

2. PRUPanel Connect

Our PRUShield Customers who have access to our **PRUPanel Connect (PPC)** services enjoy the convenience of **home-based health screenings**, or may opt to **visit a clinic near them**.

Find out more about PPC at bit.ly/ppc-pru

PPC customers also have access to the **Diabetes Care Programme (DCP)**, a six-month programme that covers various health assessments, consultations and standard medications. Eligible policyholders have the option to partially claim expenses incurred from Medisave.

3. National initiatives

Health screening is also available at many **private medical clinics** and polyclinics; find out more at bit.ly/screeningcentres

Under **Healthier SG**, free health screenings for some cancers and chronic conditions (such as diabetes and hypertension) will be offered to Singapore residents who enroll with a dedicated family doctor.

Health screening is heavily subsidised for Singaporeans and Permanent Residents (PRs) under schemes such as the **Screen for Life (SFL) programme**.
